ARCUS ADVISORY PROGRAM

(AI + MEDICINE)

The Arcus Advisory AI + Medicine Program is a 10-week course curated for ambitious students interested in the field of AI and medicine. You will engage with AI experts, lectures, programming notebooks, and a hands-on project based on the applications of AI in healthcare and medicine.

Through this course, you will get the opportunity to dive deeper into how AI is transforming healthcare and medicine. You'll work on projects to use AI & ML models to diagnose diseases, sharpen medical scans, and explain their outcomes to aid doctors and patients. The course is designed to help you understand the applications of AI in genomics, hospital admissions, drug discovery, neuroscience, and more!

PROGRAM INFORMATION
